

Find the Antibiotics

Billy needs to take all of his medicine to make sure his infection is gone. Help him find all of his antibiotics so he can get well!

Start here

Teaching Children to Wash Their Hands

1. Use liquid soap and warm water.

Water alone does not get rid of germs.

2. Wet your hands.

3. Apply liquid soap.

It is not necessary for children to use antibacterial soap.

4. Rub your hands together for at least 20 seconds (the time it takes to sing *Twinkle, Twinkle, Little Star.*)

5. Rinse your hands for 10 seconds.

6. Dry your hands with a paper towel and use the towel to turn off the faucet.

7. Throw paper towel away.

Twinkle, twinkle little star,
Look how clean my two hands are,
Soap and water, wash and scrub
Get those germs off rub-a-dub,
Twinkle, twinkle little star,
Look how clean my two hands are.

Antibiotic Word Scramble

Unscramble the words below and help antibiotics do their job against bacteria (not viruses!).

- 1) DTRCOO _____
- 2) GOHUC _____
- 3) TRICABAE _____
- 4) SLDOC _____
