Health Hero

★ Choose a person that you see as a leader, advocate, or possibly both and create a PowerPoint on the person and include the following items:

- The person’s name and photo of this person
- A bio of this person
- Identify several qualities or values they have that you admire and respect.
- Describe what they have done to make them such a great leader/advocate, etc.
  - Include some of their crowning achievements
  - Write a quote from yourself about them and put it into the presentation. Get other quotes from people, if possible.

★ Describe if this leader is also an advocate. If so, what have they done to demonstrate this.

★ Analyze how this Hero has impacted your health & your desire to be a leader.

★ Compare and contrast the skills needed for being a great leader and a great advocate. You can use a Venn diagram if you would like or you can just type it out.

★ Please make it creative and colorful and it is my hope that you will share it with that person.
