Objectives/Goals
- 7.1 The student will identify and explain essential health concepts to understand personal health.
- 7.3m Demonstrate how to influence others to make positive health choices. (Communication Skills)

Material
- Three poster newsprint (Mental/Emotional, Social, Physical)
- Sticky notes

Procedure
Step 1 - Social Awareness
- Review Self awareness
  - Part of being self-aware is having a growth mindset. Place the Fixed Mindset questions on Newsprint and spread around the room. Distribute sticky notes and ask the students to respond to each Fixed Mindset on your call. On another call, ask the children to walk to the newsprint and place their Growth Mindset responses. Discuss
  - Growth mindsets—the belief that students learn more or become smarter if they work hard and persevere. Students may learn more, learn it more quickly, and view challenges and failures as opportunities to improve their learning and skills. [https://www.edglossary.org/growth-mindset/](https://www.edglossary.org/growth-mindset/)

- Begin the lesson by providing a definition of Social Awareness
  - The ability to take the perspective of and empathize with others, including those from diverse backgrounds and cultures. The ability to understand social and ethical norms for behavior and to recognize family, school, and community resources and supports.
  - Sub-competencies
    - Perspective taking
    - Empathy
    - Appreciating Diversity
    - Respect for others
  - Ask the students the definition of empathy.
    - Empathy: the feeling that you understand and share another person's experiences and emotions; the ability to share someone else's feelings. ([https://www.merriam-webster.com/dictionary/empathy](https://www.merriam-webster.com/dictionary/empathy))
Step 2 - Teaching the skill of Social Awareness

- Students are paired and receive a Walk a Mile in Another Peer’s Sneakers scenario. Students answer the questions and role play a healthier reaction.
- Reflect by asking how the exercise helps teens be more socially aware; how it helps them take perspective of different situations; how it helps them appreciate diversity and respect for others.

Step 4 - End of class assessment

- End of class review. Ask questions about all the content (Social-awareness)
- Exit ticket-How will this lesson help you practice being socially aware?

Assessment Idea

- Formatively assess the students as they complete the mind set/growth activity.
- Students use green, red, and yellow circles. Red up means they do not understand; yellow up means they need help; green means they understand and don’t need help.
